CAREER OBJECTIVE

Final-year B.Tech Electrical Engineering student (2027 batch) with a Diploma in Electrical Engineering, seeking an entry-level opportunity where I can apply my engineering fundamentals and grow with the organization. I am particularly interested in **electrical power systems**, as well as **VLSI, embedded systems and other design and simulation fields**. I bring hands-on exposure to simulation and design tools (ETAP, PSIM, MATLAB, ANSYS, AutoCAD Electrical), industrial training and site visits, two first-author conference papers (one IEEE-published), and proven teamwork and coordination skills. I am a quick learner, dependable under responsibility, and keen to contribute to challenging projects across core electrical, electronics and design roles.

EDUCATION

B.Tech Electrical Engineering (MAKAUT) – GKCIET, Malda 2024 – 2027
CGPA 7.909 (up to 6th Semester)

Diploma in Electrical Engineering – Falakata Government Polytechnic 2021 – 2024
CGPA 8.20/10 (79.60%)

Higher Secondary (WBCHSE) – Mc William High School, Alipurduar 2021
90.00% | Madhyamik (WBBSE) 2019 – 70.43%

TECHNICAL SKILLS

- **Power Systems & Simulation:** ETAP, PSIM, MATLAB, ANSYS (FEA basics), engineering simulation and result analysis
- **Design & CAD:** AutoCAD Electrical, Autodesk Electrical, 2D/3D model preparation, engineering drawings
- **Electronics, Embedded & IoT:** Arduino, ESP8266/ESP32, RFID, sensors, IC 555 circuit design and simulation, Power-MCU based embedded design, Google Sheets integration
- **Programming & Data:** Python, C, MATLAB, Scilab, data analysis, Machine Learning (basics), MS Excel
- **Professional:** Technical report writing, problem solving, team leadership, coordination, MS Office, PowerPoint; English / Hindi / Bengali

PROJECTS

Human-in-the-Loop E-Bike – Sensors, Motor Control, ML, MATLAB/Python

- Developed adaptive torque/motor control for an e-bike using sensor feedback and ML-based torque optimization, analysing results in MATLAB/Python.
- Results published as two first-author papers: PEIS-2026 (GKCIET) and ICVCS-2026 (Kolkata, IEEE DOI: 10.1109/ICVCS69586.2026.11683050).

IoT RFID Attendance System – ESP8266, RFID, Google Sheets Diploma Major Project

- Built a real-time attendance logging system that records RFID scans to Google Sheets over Wi-Fi.

Diploma & Trainer-Kit Projects – Sensors, IC 555, Embedded 2023 – 2026

- Smart Security System for farm protection (5th Sem); Monostable Multivibrator using IC 555, designed and simulated (4th Sem); PICT trainer-kit stepper motor controller – Smart Dustbin (ongoing).

RESEARCH & PUBLICATIONS

- **ICVCS 2026, Kolkata** – First author; ML-based torque optimization for adaptive E-Bike control; presented in person (4–5 July 2026); published 9 Sept 2026 (IEEE Xplore).
- **PEIS 2026, GKCIET Malda** – First author; adaptive E-Bike control; presented in person (3–4 April 2026); also Organizing Committee Member.

TRAINING & INDUSTRIAL EXPOSURE

- **Electric Locomotive Shed, Malda** – 15-day training on locomotive electrical systems and maintenance (Aug 2026).
- **IoT with Autodesk Electrical** – Power-MCU based embedded system design (2024).
- **Industrial visits:** ±800 kV HVDC Grid, Tapshikhata (2023); WBSEDCL 33/11 kV Substation, Falakata (2022).

CERTIFICATIONS

- Arduino & Scilab Training – Spoken Tutorial, IIT Bombay (2025)
- Effective Workplace Skills – Wadhwani Foundation (2024, 82%)
- Finishing School Programme I & II – GKCIET T&P Cell (2026)

LEADERSHIP & ACTIVITIES

- **Student Coordinator** – Training & Placement Office, GKCIET and Finishing School Program; **Event Coordinator** – TechPrabha.
- Student Ambassador, IIT Bombay (Spoken Tutorial); Member – E-Cell; Scout & Guide member.
